

Op- en afslagen (see for English below)

Een op- of afslag wordt gehanteerd ter bescherming van de zittende aandeelhouders in de fondsen. Met de opslag bij uitgifte van eigen aandelen of participaties door het fonds en met de afslag bij inkoop worden de kosten die het fonds hiervoor moet maken, vergoed. Deze kosten betreffen de wijzigingen die de beheerder in de beleggingsportefeuille van het fonds moet aanbrengen: de transactiekosten bij verkoop of aankoop van de onderliggende effecten, mede rekening houdend met eventuele marktimpact en belastingen.

Onder meer als gevolg van verschillen in transactiekosten, belastingen en marktimpact, zullen de op- en afslagen van fonds tot fonds onderling verschillen.

De op- en afslagen per fonds zijn per 14 juli 2017 als volgt:
